## Option 1A: Thales Pitot Probe Adapter

Part No. CSA3200-4

Effective on  
Pitot Probes:

- 50620
- C16195AA
- C16195BA

## Option 1B: Goodrich Pitot Probe Adapter

Part No. CSA3300-4

Effective on  
Pitot Probes:

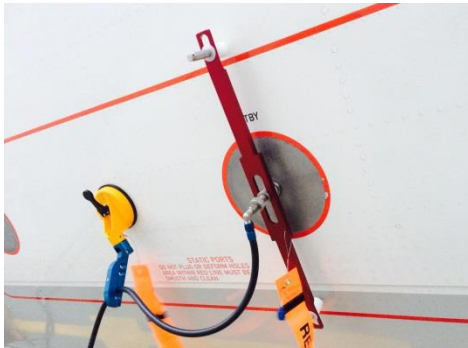

- 0851HV
- 0851GR

## Option 2A: Bar Type Static Adapters

Part No. CSTA320-4-4  
(Main)

Part No. CSTA320-4  
(Standby)

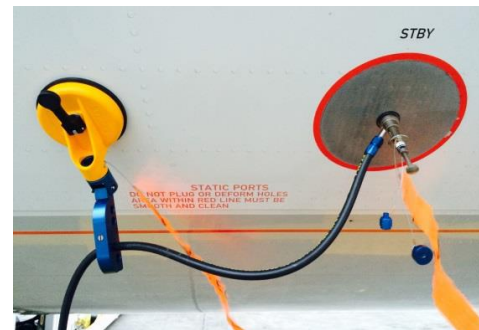

**Bar Type Static Adapters** are mounted to the fuselage with two threaded studs above and below the static port. The seal is then tightened flush against the static port

## Option 3A: NON-RVSM Accessory Kit

- **2 Pitot Adapters** included in the kit
- **Static Port Adapters** for testing one side of the aircraft at a time
- **Non-RVSM** capable pitot & static hose assemblies

## Option 2B: Cleco Style Static Adapters

Part No. CSTA19725-4  
(Main & Standby)

**Cleco Style Static Adapters** are mounted by depressing the push cap and extending the jaws. The adapter is then inserted into the static port. Retracting the jaws will provide a tight seal.

## Option 3B: RVSM Accessory Kit

- **3 Pitot Adapters** included in the kit
- **Static Port Adapters** for testing both sides of the aircraft simultaneously
- **RVSM** capable pitot & static hose assemblies
