Option 1A: Thales Pitot Probe Adapter

Part No. CSA3200-4

Effective on
Pitot Probes:

- 50620
- C16195AA
- C16195BA

Option 1B: Goodrich Pitot Probe Adapter

Part No. CSA3300-4

Effective on
Pitot Probes:

- 0851HV
- 0851GR

Option 2A: Bar Type Static Adapters

Part No. CSTA320-4-4
(Main)

Part No. CSTA320-4
(Standby)

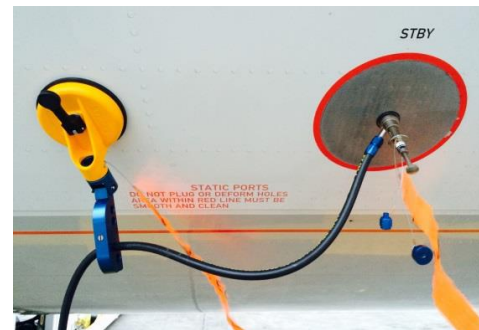

Bar Type Static Adapters are mounted to the fuselage with two threaded studs above and below the static port. The seal is then tightened flush against the static port

Option 3A: NON-RVSM Accessory Kit

- **2 Pitot Adapters** included in the kit
- **Static Port Adapters** for testing one side of the aircraft at a time
- **Non-RVSM** capable pitot & static hose assemblies

Option 2B: Cleco Style Static Adapters

Part No. CSTA19725-4
(Main & Standby)

Cleco Style Static Adapters are mounted by depressing the push cap and extending the jaws. The adapter is then inserted into the static port. Retracting the jaws will provide a tight seal.

Option 3B: RVSM Accessory Kit

- **3 Pitot Adapters** included in the kit
- **Static Port Adapters** for testing both sides of the aircraft simultaneously
- **RVSM** capable pitot & static hose assemblies
